SANIKA VISHNU SURASHE

+91-9529474434 | sanikasurashe647@gmail.com | linkedin.com/in/sanika-surashe | github.com/Sanika347 | Pune, India

Professional Summary

Junior Data Engineer with hands-on experience in Python, SQL, data cleaning, validation, transformation, and ETL workflows. Experienced in preparing structured and unstructured data for analytics and ML/GenAI workloads.

Technical Skills

- **Data Engineering::** ETL Pipelines, Data Ingestion, Data Cleaning, Data Validation, Data Transformation, Anomaly Detection, REST APIs
- **Analytics & BI:** Power BI, Excel, Exploratory Data Analysis (EDA)
- **Programming :**Python, SQL, Pandas, NumPy
- **ML & GenAI:** Scikit-learn, XGBoost, NLP, TF-IDF, Embeddings, Semantic Search, LangChain, LangGraph, RAG

Professional Experience

Data Engineer Intern Jun 2026 – Present
Alten India *Onsite*

- Supported **Python-based data processing workflows** involving data extraction, transformation, cleaning, validation, and pre-processing across multiple data sources.
- Used Python, Pandas, and NumPy to automate data preparation and preprocessing tasks for downstream analytics and AI/ML workflows.
- Prepared and transformed structured and unstructured data for **machine learning and AI applications**, following defined quality and processing requirements.

Data Scientist Intern Mar 2025 – Aug 2025
Greatway Software Solution *Pune, Maharashtra*

- Performed data collection, extraction, cleaning, tagging, deduplication, preprocessing, and anomaly detection on structured and unstructured datasets using Python, Pandas, and Regex.
- Supported ML workflows by preparing high-quality datasets, monitoring data trends, identifying anomalies, and evaluating data consistency.
- Automated data-processing and reporting tasks using Python, reducing manual effort and improving workflow efficiency.

Projects

E-Commerce Sales Analytics Chatbot *Deploy Link* Sep 2026

- Built a Generative AI chatbot that converts plain-English business questions into analytical queries, visualizations, and actionable insights using the Brazilian Olist e-commerce dataset.
- Designed a **dual-agent architecture** using Gemini and deterministic Regex/keyword-based fallback logic to improve reliability and handling of unsupported queries.
- Implemented **MCP-based tool integration** with 6 analytics tools covering orders, sellers, payments, reviews, and delivery data..
- Containerized the application using Docker Compose and structured the application for scalable deployment and maintenance.

GCP-Integrated Job Scraper & NLP Match Engine *GitHub* Jan – Apr 2026

- Built a Python-based data collection and processing pipeline that extracts job information from 100+ sources using Workday, Eightfold, and JSON-based crawlers.
- Developed an **NLP-based job matching system** using all-MiniLM-L6-v2 embeddings and cosine similarity to rank jobs against user requirements.
- Built REST APIs using **FastAPI** and designed the application for deployment on GCP Cloud Run/Cloud Functions.

Malicious URL Classification System Python · Scikit-learn · XGBoost · REST API *Deploy Link* Sep – Dec 2025

- Built and evaluated Random Forest, XGBoost, SVM, Logistic Regression, and Naive Bayes models using TF-IDF and regex features; achieved 80% accuracy.
- Deployed the model via a Flask REST API for real-time prediction; performed EDA with Pandas/NumPy and reported results in Power BI.

AI-Powered Disease Recognition System Python · GenAI · RAG · LangChain *Deploy Link* Mar – Aug 2025

- Developed a Generative AI and RAG-based application using an OCR → semantic chunking → vector store → LLM pipeline for medical report analysis.
- Used **LangChain, embeddings, prompt engineering, and LLM-based generation** to provide context-aware summaries from extracted report information.
- Achieved 92% reported accuracy and reduced manual report-review time by 40% through automated information extraction and AI-assisted analysis

Education

B.Tech – Computer Science Engineering (AI & ML), CGPA: 7.86/10.0 Jun 2021 – May 2025
DIEMS College, Dr. Babasaheb Ambedkar Technological University, Maharashtra

Certification

- Google Cloud Career Launchpad – Data Analyst Track Certificate View Certificate
- Data Science Essentials with Python View Certificate
